PROFILE

My name is Man Panchani, a Senior Flutter Developer with 4+ years of experience in building scalable and user-friendly Android and iOS applications. I specialize in Flutter, Dart, Firebase, REST API Integration, GetX, Provider, Supabase, and MySQL, with experience developing ERP systems, finance apps, face attendance solutions, dating platforms, productivity tools, and business automation software. I have expertise in Figma-to-Flutter development, third-party integrations, app performance optimization, and Play Store/App Store deployment. As a Team Leader, I have successfully managed projects, mentored developers, and delivered high-quality mobile solutions on time while ensuring excellent user experiences. I am passionate about creating clean, maintainable, and high-performance applications that solve real business challenges. With strong problem-solving skills and a commitment to continuous learning, I consistently deliver reliable and innovative mobile solutions.

EDUCATION

Bachelor of Computer Application 2022 – 2025
Bhagwan Mahavir University

H.S.C 2021 – 2022
Ashadeep Group of School

PROFESSIONAL EXPERIENCE

Sensational Software Solutions 11/2022 – 11/2023
Flutter Developer

- Experienced Flutter Developer with a strong foundation in Dart and cross-platform UI development. Worked on a **School Education App** and a **Khatabook-style finance App**, focusing on clean UI, REST API integration, and smooth state management using Provider and GetX. Skilled in PHP-based API development and Figma for UI/UX design. Collaborated in a company environment, handling full app development lifecycle from design to deployment.

Laxmisoft Technologies 11/2023 – 02/2025
Flutter Developer

- I worked extensively on multiple real-world Flutter projects, enhancing my skills in both frontend and backend integration. I contributed to apps like a **Love Match App**, **Video Conferencing App**, **Novel Reading** A**pp**, **Loan Calculator and Budget App**, and **Guidance App**, handling UI/UX, API handling, and business logic.
- I mastered REST API integration (GET, POST, UPDATE, DELETE), enabling dynamic and secure communication with backend services. Gained practical knowledge of Platform Channels to implement native features within Flutter, and used SQFlite for efficient local data storage and offline capabilities.
- I also worked in a collaborative team environment using Git for version control and followed clean code practices. From screen design to final deployment, I was involved in every phase of development, building scalable, responsive, and user-friendly mobile applications.

WebAppNova 02/2025 – present
Sr. Flutter Developer

- Senior Flutter Developer & Team Leader with 4+ years of experience in developing high-performance Android and iOS applications.
- Led end-to-end development of **ERP Systems**, **Face Attendance Systems**, **Payroll Apps**, **Task Management Apps**, **Ticket Systems**, **QR Scanner Apps**, and **other business automation solutions**.
- Strong expertise in Flutter, Dart, Firebase, REST APIs, MySQL, Supabase, GetX, Provider, Bloc, Payment Gateway Integration, and Third-Party SDKs.
- Developed scalable and user-friendly applications with clean architecture, real-time features, secure backend integration, and optimized performance.
- Converted Figma designs into responsive, pixel-perfect mobile applications and managed complete Play Store and App Store deployments.
- As a **Team Leader**, **handled project planning**, **task allocation**, **code reviews**, **client communication**, and ensured on-time delivery of high-quality solutions.
